SAFETY POSTER

Insects, ticks and stings

1. **Know what bites and stings on this site**
   29 CFR 1926.21(b)(4)
   OSHA has no standard written just for insects and ticks, but in construction the general duty to train still applies.
2. **Cover up and use repellent**
   Wear long sleeves and long pants, and tuck your pants into your socks or boots in grass and brush.
3. **Check for ticks every day**
   After work, check your whole body, especially your scalp, ears, armpits, waist, the backs of your knees and your groin.
4. **Stay calm around bees, wasps and fire ants**
   Look before you reach into equipment, boxes, eaves or holes in the ground, and watch for ant mounds.
5. **Cut down on mosquitoes**
   Mosquitoes breed in standing water, so dump water from buckets, tires, tarps and other containers on site.

DO

Cover up, use repellent, check for ticks every day, stay calm around stinging insects, and call 911 at the first sign of a severe allergic reaction.

DON'T

Do not twist it, burn it or smother it with nail polish or petroleum jelly.

CARTEL DE SEGURIDAD

Insectos, garrapatas y picaduras

1. **Sepan qué los puede picar en este lugar**
   29 CFR 1926.21(b)(4)
2. **Cúbranse y usen repelente**
   Usen manga larga y pantalón largo, y en el pasto y el monte métanse el pantalón dentro de los calcetines o de las botas.
3. **Revísense todos los días por si traen garrapatas**
4. **Mantengan la calma con las abejas, las avispas y las hormigas de fuego**
5. **Protéjanse de los mosquitos**

HAGAN ESTO

Cúbranse, usen repelente, revísense todos los días por si traen garrapatas, mantengan la calma con los insectos que pican y llamen al 911 a la primera señal de una reacción alérgica grave.

NO HAGAN ESTO

No la tuerzan, no la quemen y no la ahoguen con esmalte de uñas ni con vaselina.
