MODULE 1

Why the holidays are different

- [ ] Deadlines pile up before the break, and rushing leads to skipped steps
- [ ] Short days mean more work and driving in the dark, often on ice
- [ ] Decorations, deliveries, cords and ladders show up in new places
- [ ] Parties, travel, stress and late nights leave people tired and distracted
- [ ] OSHA has no specific standard for holiday safety; the general duty to train still applies

29 CFR 1926.21(b)(2)

Crew handout

Holiday season safety

29 CFR 1926.21, 1910.37, 1910.157, 1910.305, 1910.334, 1910.23

Do

- Plan the last week so nobody rushes a job before the break
- Keep exit routes, exit doors and fire extinguishers clear
- Check cords and lights before you plug them in
- Use an inspected ladder, face it and keep a hand on it as you climb
- Report ice and damaged cords or ladders right away
- Plan your ride home before any party starts
- Walk the site and check equipment on the first day back

Don't

- Do not stand on chairs, desks or boxes to decorate
- Do not staple or nail cords, or tape over damage
- Do not put decorations, boxes or trees in an exit route
- Do not climb a ladder with your hands full
- Do not drive after drinking

SAMPLE

Remember **Slow down, keep the way out clear, and get home safe.**
