SAMPLE

MODULE 1

PPE is the last line of defense

- [ ] PPE is gear you wear to protect your body from a hazard
- [ ] **First choice**
  remove the hazard, or change the work so the hazard is not there
- [ ] **Next**
  controls such as guards, barriers, ventilation and safer work methods
- [ ] PPE handles what is left. It only works if it is the right gear, fits, is in good shape and is worn
- [ ] **Noise and airborne contaminants**
  feasible controls come before PPE

  1926.52(b); 1910.134(a)(1)

29 CFR 1926.52(b); 1910.134(a)(1)

Crew handout

PPE on the job

29 CFR 1910.132, 1926.28, 1926.102, 1926.100, 1926.101, 1910.134

Do

- Know what PPE each task calls for before you start
- Wear PPE that fits, and speak up when it does not
- Check your PPE before each use
- Use eye protection with side protection when objects can fly
- Put hearing protection in before loud tools start
- Pick gloves for the hazard, and check the safety data sheet
- Clean PPE and store it away from sun, heat and chemicals
- Report damaged or missing PPE and get a replacement

Don't

- Don't use cracked, torn or damaged PPE
- Don't push safety glasses up while the hazard is there
- Don't use regular glasses or sunglasses as safety glasses
- Don't put cotton in your ears as hearing protection
- Don't wear a tight-fitting respirator with facial hair in the seal
- Don't paint, drill or modify PPE unless the maker allows it

SAMPLE

Remember **PPE only protects you when it is the right gear, fits, is in good shape and is on you.**
